

DIOGO BASTOS

Senior Full-Stack Software Engineer

<https://diogobastos.pages.dev> | diogovvb@gmail.com | linkedin.com/in/diogo-bastos

PERSONAL PROFILE

- Full-stack software engineer with 20 years of experience building scalable web applications using modern frameworks and methodologies, with a track record of delivering high-impact solutions in collaborative, Agile environments.
 - Frontend expertise in React.js, React Native, TypeScript/Javascript, with state management (Redux, Apollo Client, TanStack React Query) and comprehensive testing (Jest, Testing Library, Vitest).
 - Backend proficiency in Node.js microservices, Java/Spring Boot microservices, GraphQL (Hasura, Apollo Federation), PostgreSQL, Spring Cloud ecosystem (AWS, Vault), and OAuth2/JWT security.
 - DevOps and architecture experience with Docker/Kubernetes deployments, CI/CD pipelines (Concourse, Jenkins), monorepo management (Turborepo), comprehensive monitoring and observability (Datadog), and RESTful/GraphQL API design.
-

PROFESSIONAL EXPERIENCE

FEB 2026 – PRESENT

SENIOR FULL-STACK SOFTWARE ENGINEER

Pearson Education Inc | eDynamic Learning, Remote, Canada

eDynamic Learning, a Pearson company, develops digital curriculum and virtual learning experiences that help educators prepare students for academic and career success.

- Design, develop, and maintain scalable full-stack applications using Node.js, TypeScript, Express, React, and SQL.
- Deliver features end to end, from requirements and technical design through implementation, testing, deployment, and production monitoring.
- Build and maintain RESTful APIs and relational data models, emphasizing performance, reliability, and maintainable code.
- Collaborate with Engineering, DevOps, Business Systems, Product, and Operations teams to align solutions with business requirements and timelines.
- Improve software quality through automated testing, code reviews, production troubleshooting, developer mentoring, and knowledge sharing.

OCT 2022 - OCT 2025

SENIOR SOFTWARE DEVELOPER

Houghton Mifflin Harcourt, Montréal QC

HMH is a learning technology company committed to delivering connected solutions that engage learners, empower educators, and improve student outcomes.

- Led a team of six engineers delivering classroom management solutions that differentiated the platform for teachers.
- Built full-stack features with React, TypeScript, GraphQL (Hasura; Apollo Federation Java), Apollo Client, TanStack React Query, and Single-SPA micro-frontends.
- Implemented Node.js backend by maintaining an Express.js service for the Lift ExpoJS app (health endpoints, static serving, local/prod workflows via Yarn/concurrently).
- Used Node.js in CI/CD with Apollo Rover and apollo-server/gateway to validate and publish GraphQL subgraphs across environments.
- Architected and delivered microservices with Java/Spring Boot and Hasura GraphQL Engine on PostgreSQL, leveraging Spring Cloud (AWS, Vault, Consul) and OAuth2/JWT.
- Operated at scale with Docker/Kubernetes, Concourse/Jenkins, Turborepo, and Datadog observability; ensured quality with Jest, Vitest, and Testing Library in Agile teams.

MAR 2020 – OCT 2022

SENIOR SOFTWARE DEVELOPER

TEKsystems, Inc. , Montreal QC

TEKsystems is an IT services and consulting company with over 10,000 employees, providing solutions for various global clients. Assigned to the Houghton Mifflin Harcourt project.

- Developed responsive user interfaces using React.js, TypeScript, HTML5, and CSS for cross-platform mobile and desktop applications, focusing on information architecture and interaction design.
- Collaborated on UI/UX design by analyzing requirements, creating prototypes and workflows, and providing expert input in design sessions on page design, site flow, and usability.
- Built production-ready components with React, TypeScript, integrating GraphQL APIs - Apollo Client, TanStack React Query - and ensuring code quality through comprehensive testing (Jest, Testing Library).

FEB 2017 – MAR 2020

SOFTWARE DEVELOPER

Neovation Learning Solutions, Winnipeg MB

Neovation develops adaptive, data-driven online learning platforms.

- Created, maintained, and upgraded a cutting-edge microlearning platform delivering bite-sized adaptive training to ensure long-term retention.
- Developed and maintained React/TypeScript clients using React Hooks/Redux and Apollo Client
- Built serverless analytics in Node.js/TypeScript on AWS Lambda (Serverless Framework + serverless-webpack).
- Managed Node.js tooling and pipelines with Gulp/Webpack/Yarn, including local dev via webpack-dev-server
- Shipped using S3-based configuration and deployments to S3/CloudFront; ensured quality with ESLint

FEB 2007 - DEC 2016 (FULL TIME) / JAN 2016 - DEC 2017 (PART TIME)

EARLIER ROLES

Senior Java Developer, System Analyst, Java Developer / Associate Developer — Brazil

PPI-Multitask, Dexco, Indra, Otimize-TI, Sistema FIEG)

- Maintained a legacy system developed in Java web platform.
- Created new reports requested by clients using the legacy system.
- Used Eclipse, Java, Swing, JavaFX, JPA, Spring Framework, XML/JSON, SQL Server, JBoss, EJB, Crystal Reports, Apache Ant.
- Worked with a team using Scrum methodology, project management with TFS.
- Analyzed, validated, and structured client requirements, then developed software to meet their needs.
- Researched and identified new solutions and applicable technologies.
- Developed Windows applications and services using .NET, C#, VB, Visual Basic 6, and web services (SOAP & REST).
- Database design and programming with MS SQL Server (2008 and 2012).
- Technical contribution to corporate projects using Java/JEE in multi-layer architectures for web applications.
- Experience with Struts 2, Spring Framework, JSF, JSP, EJB, JPA/Hibernate, Log4J, and SOAP/REST integrations.
- Development using SQL Server and MySQL, including database modeling and query optimization.
- Strong background in Agile/Scrum, including end-to-end ticket resolution, unit testing, requirements analysis, and continuous delivery.

EDUCATION AND TRAINING

- BSc Computer Science (Software Engineering emphasis), Pontifical Catholic University of Goiás.
- Training in Business Analysis, Fundação Vanzolini
- React Web App Developer
- MCSD Web Application
- Training: AngularJS / Android / iOS / ITIL Foundation / Java Web
